

2023 stats

We are proud to have made a direct contribution to the emotional, spiritual and relational health of 365+ people in 2023. That is an estimated 5,015+ family, friends and colleagues who also benefited. We have a vibrant community, in-person and online to maximize accessibility.

Growing in healing involves sharing healing with others.

At least 20% of our community volunteered in the last 12 months **to provide support to others in the community.**

That is **79 people** on at least **850 occasions.**

Rather than focus on individual sessions, we encourage numerous small group moments, where people can encourage each other and healing becomes contagious. Everyone chooses their own program to best suit their needs.
